

Amendments to the Specification:

Please amend the Specification as follows.

Please replace paragraph [0037] with the following replacement paragraph [0037]:

[0037] Completing the example, a computing device assigned portion 311, finds two additional computing devices with IP addresses within address space 311 and delivers a copy of the payload to each computing device and assigns address spaces 314 and 315, respectively, to the computing devices. Those computing devices each find two computing devices and re-divide their address spaces, so that address space 314 is divided into the address spaces as indicated ~~indicated~~ at 330 and address space 315 is divided into address spaces as indicated at 332. Similarly, address space 312 becomes address spaces 316 and 318. Each of address spaces 316 and 318 in turn becomes ~~become~~ address spaces as indicated at 334 and 336.
